BridgePoint Risk Management Introduced as New Company Name Following Merger of NEBCO Insurance Services and TDC Risk Management

NAPLES, FL December 2017 – As part of a rebranding effort following their [recent merger](#), NEBCO Insurance Services and TDC Risk Management have announced their new company name will be BridgePoint Risk Management, LLC. The combined company will begin to adopt the new corporate brand during the fourth quarter of 2017.

BridgePoint Risk Management will maintain offices in Greenwich, CT, Maumee, OH, New York, NY, Naples and Palm Beach, FL, and Phoenix, AZ. Additional client advisors will continue to operate in California, Illinois, Indiana, Kentucky, Maryland and North Carolina.

“Launching our new brand demonstrates the unification of the two companies. Our new tagline ‘Listen. Advise. Exceed.’ reinforces our client-centric approach to insurance consultation and commitment to white-glove client service. We maintain independent access to best-in-class insurance companies, offering comprehensive personal and commercial insurance solutions,” commented John Paolini, BridgePoint CEO.

“The new name also highlights an important focus that helped bring the two firms together,” says Cleves Delp, Founder of TDC Risk Management. “The merger of our two firms was largely made possible by the many things we share in common. One of these is our experience and expertise in the personal and commercial market and our ability to bridge the unique insurance requirements of our clients by connecting them with the right arrangements and specialized carriers who truly understand our clients’ needs and risks.”

“Both teams’ focus has always been on listening to the client, delivering consultative advice, and exceeding client expectations. This merger has given us the opportunity to refresh our marketing to ensure that message is at the forefront of our brand,” said Jim Schwarzkopf, BridgePoint Chief of Sales Operations.

“Clients will see a fresh new look when interacting with the company, but the forged relationships that have been cultivated over the years will remain intact,” said Greg Jones, BridgePoint COO.

Personal and Commercial Insurance clients, insurance carriers, and local business partners will continue to work with their current advisors and support teams. Beginning in December 2017, and throughout 2018, clients of both agencies will begin receiving notifications and insurance documents containing the new brand BridgePoint Risk Management.
