# BridgePoint Risk Management Partners with CPAGold™ to offer Accounting Firms the Ultimate Win-Win

***A new loss prevention online program offers CPAs the chance to earn CE credit and save on their professional liability insurance.***

GREENWICH, CT – August 12<sup>th</sup>, 2020 – BridgePoint Risk Management has partnered with CPAGold™, one of the nations leading professional liability insurance programs for accounting firms, to bring its CPA clients its online loss prevention online program. This self-study course, which provides an overview of the sources and causes of malpractice claims, their legal basis, and simple and effective loss mitigation techniques, offers CPA clients the opportunity to earn up to 12 CE credit hours, and also the ability to save up to 7.5% on its professional liability insurance premium for the next three years.

“We understand our CPA friend’s time is valuable. So we are excited to offer our current clients, and the CPA community at large, this opportunity to learn how to better control the risks that face their teams today, and at the same time give them the opportunity to knock out some credit hours,” says Brian Schwarzkopf, Client Advisor with BridgePoint’s Professional Liability team. “We are firm believers that knowledge is power, and better understanding how to minimize risk should lead to a reduction in premium, so the ability for firms to also save on their professional liability insurance, not just for one year but for three, is a huge benefit to these firms.”

This program is meant for CPAs and other accounting and consulting professionals with a basic or intermediate knowledge of typical malpractice issues. No advance preparation is needed. If you are interested in learning more about this program and how it can benefit your firm please contact Brian Schwarzkopf at 419-794-7683 or [bschwarzkopf@bridgepointrm.com](mailto:bschwarzkopf@bridgepointrm.com).
